THE BALL IS STARTED

McKinley Club Discusses a St. Louis Trip.

PULLMANS AND A BIG TIME

A Committee Appointed To Investigate Fares and Prepare For the Trip—The Whole of the County Will Be Invited To Take Part—A Cheap Rate Expected.

The trip of the Liverpool admirers of Governor McKinley to the St. Louis convention seems in sight, the McKinley club having given the ball a vigorous kick last night.

The plan proposed at the well attended meeting of the club last evening was to secure three Pullmans for the accommodation of the organization and any other reputable people who may desire to accompany the party. The cars will make up a special train, and will be run through to St. Louis in the shortest possible time. After reaching the city they will be sidetracked at some convenient point, and the people holding tickets can use the cars for lodging while they are there. It is expected the trip will last at least six days, and the estimate is that it can be made for \$20 a man for fare or \$25 at the highest. The committee will at once correspond with the railroad officials, and report as soon as possible. Then another committee will be chosen to take charge of the trip. Those who want to go will make a contract for accommodations, and will be asked to make a small deposit as a guarantee of good faith. Not only this city, but Wellsville, Lisbon, Salem and all other towns in the county will be asked to join us. From present indications the party will number over 100, and will be large enough to give the city an excellent advertisement in the states through which the train will pass.

It is sincerely hoped that the committee will be successful and secure a low rate, for East Liverpool should be well represented in St. Louis. The train will be decorated with banners bearing the name of the city and the cause of the trip, and should serve as a big advertisement. Thousands of people who know nothing of East Liverpool, would see the train, read the name, find out our industry and never forget it.

TRENTON'S CONDITION.

Better at the End of the Year Than Was Expected.

The Trenton correspondent of a trade paper has this to say:

The pottery business, as is customary at this season, is practically at a standstill, almost all the factories have shut down or being about to shut down for the purpose of stock taking. The season has been in some respects a peculiar one, inasmuch as some of the potteries have been doing a fairly brisk business, while with others business has been decidedly dull. The outcome of the year's work will be looked upon with interest, and many of the potters look forward with some anxiety to the making up of their books. One of the manufacturers who has been doing one of the largest businesses in the city, said that he would be perfectly satisfied if his pottery came out even on the year's work. In general the work of the year has been better than was at first expected, although far below what it used to be. The sanitary potteries have done a much larger business than the general ware plants. Notwithstanding the fact that potters have been very careful to keep down their expenses as low as possible, the season has developed some unusually pretty shapes and decorative patterns, showing that manufacturers appreciate the necessity of keeping up with the demands of the trade.

EM HARRIS GONE.

She Was Sent To Her Home By the League.

Em. Harris, who was to leave the city and remain away, under penalty of arrest in case of her return, elected to reform and try to live right, and was provided with a home for the time being, at the expense of the law and order and social purity league, until such time as work could be secured for her. She was formerly an inmate of Ann Houser's infamous den; but this was forgiven her and she was given an opportunity to live right if she had any desire to do so. But she was brazen and false, and had no more idea of doing right than has her former employer. The very first night she was out on a lark, and remained until such a late hour that she dared not report at her respectable stopping place. She was shadowed, caught at her bad work and pleaded that she might not again be arrested, stating that, in case a ticket was given her for Trenton, she

would take her departure and never again return to East Liverpool. Merciful to the extent of foolishness, the representative of the league furnished her with a ticket to Trenton, gave her some small change and provided her with a nice basket of food and fruit, took her to the train, saw her on board and bade her good-bye. She left her country for her country's good.

GOOD SCORES.

A Big Crowd See Wing Shots So Splendidly.

Fully 200 persons were over the river today witnessing the shoot of the gun club. The air was clear and bracing, and the sport all that could be desired. As a rule the birds were strong flyers, and made excellent sport. The first match was made up of 10 birds and the entrance fee was \$7 with eight entries. Williams, of Rochester, got first money, killing 10, and Crable was second with nine to his credit. Myler, Grace and Humm, marksman who are very well known here, were tied for third place, each getting eight birds. The first match occupied the greater part of the morning, and at noon the shots were just starting on the second. All the visitors are having a good time, and are being well entertained by local marksmen.

MERRY DAY FOR FAIRMOUNT.

How the Children Enjoyed East Liverpool's Donation.

East Liverpool's donation was received at Fairmount home with every manifestation of joy by the youngsters. Mrs. Southworth was given a handsome silk dress by the trustees, and a beautiful chamber set by the trustees of this township. There was an entertainment in which a number of the children took part, the performance taking the form of a cantata, which developed remarkable ability on the part of some of the little ones. Mr. Archie McGregor, of Canton, was present, and aided in the enjoyment by giving a number of recitations. It was a delightful day for the little ones and Mr. Southworth.

A BIG EAGLE.

It Soars High in the Air Near Kendall.

Mr. Pinkerton, a resident of Kendall, Pa., a small town seven miles from the city, was in town yesterday, and told a story of an eagle. It is a bald eagle and as big as a turkey. When first seen it was apparently full grown, and ambitious hunters have endeavored to kill it, but the best shots in the community have been unable to bring it down. It can pounce down on a rabbit and carry it off without difficulty, flying with its prey at a great height. The presence of the eagle has caused no end of stir among the farmers, as it is the first one seen in that vicinity for years.

GETTING BETTER.

Smallpox is Wearing Out at Bridgeport and Martin's Ferry.

A traveling salesman brought the news from down the river today that the smallpox situation at Martin's Ferry and Bridgeport is steadily improving. A number of suspects who were quarantined the early part of the week have been released, and 23 patients have recovered and will be discharged as soon as the health authorities can make the arrangements. This leaves but a few over 25 cases in the town, and they are getting better. No new cases have been located at Bridgeport, and the town is in much better condition than in any time for weeks.

SOCIETY WILL BE THERE.

Brent's Opera House Will Be Dedicated In Style.

Elaborate preparations are being made for the opening of the old opera house on an evening in the first week of January, the date having not yet been fixed. The Phoenix, Columbian and Utopia clubs, and many other prominent society people in the city will be invited, and the occasion made one of unusual enjoyment. A musicale will occupy the first hour after the guests arrive, and dancing will continue the festivities. The stage has been reduced in size, and the acoustic properties of the large room vastly improved.

A Good Work.

Commissioner Welsh and his men are hard at work in the West End today raising the crossing at Peake's store. The improvement has long been needed, and will be appreciated by the residents of that part of town.

Died in Indiana.

Doctor Ogden is in receipt of news from Scotland, Ind., telling of the death of his nephew, Malin Ogden, at that place.

HE SAVED THE BABY

But It Cost Patrick McCloskey a Broken Arm.

HE SLIPPED ON THE STAIRWAY

The Well Known Mail Carrier Was Carrying His Grandchild In His Arms When the Accident Happened—The Fractures Are Severe.

Patrick McCloskey, the well known mail carrier, is lying at his home in the lower part of the city today, suffering from a painful injury.

Last evening Mr. McCloskey was walking down stairs with one of his grandchildren in his arms when his foot caught in the carpet, and he fell. He knew at once that he could save himself any injury at the expense of the baby, but the old soldier had faced the enemy too often to think of an action such as that. Consequently he threw his whole weight on his arm, and the child was unhurt. The force of the fall was so great that the arm was broken in three places, and Mr. McCloskey suffered severely. A physician reduced the fractures and made him as comfortable as possible, but the injury is so serious that he continues to suffer a great deal. A little less than three years ago Mr. McCloskey, while engaged in fulfilling his duties as a mail carrier, fell on the street, and broke his leg. The fracture was a bad one, and he was confined to his home for several months. He is well known in the city, and has a host of friends and acquaintances to hope that he will soon recover.

READY FOR WORK.

Pilgrim Commandery Has All Things Prepared.

Pilgrim commandery, Knights Templar, this week received their paraphernalia, and are now fully organized. The officers are rehearsing, and will in a few weeks confer the orders of knighthood on a large class. The officers of the commandery are: Sir B. C. Simms, E. C.; Sir R. B. Williamson, Gen.; Sir R. E. Hill, C. Gen.; Sir Will A. Rhodes, P.; Sir Edward Deavon, S. W.; Sir George J. E. Phillips, J. W.; Sir John N. Taylor, treasurer; Sir Joseph G. Lee, Rec.; Sir W. L. Barnes, St. B.; Sir C. E. Macrum, Sw. B.; Sir John W. Vodrey, warden; Sir William M. McClure, sentinel.

Ceremonial services were held at high noon on Christmas day, when the usual toast to the grand commander was drunk.

EXPLANATORY.

A Witness To Munchausen Billy's Scoring Speaks His Piece.

EDITOR NEWS REVIEW:—I was an interested witness and a much amused listener to the conversation between Detective Huckle and Munchausen Billy, which occurred at city hall the other night. Billy's common remark, when he wishes to indulge in childish malice or spite, is, "Oh, won't I roast you in my paper?" The impudent youth seems to delight in the word roast, as he rolls it up and over and around his Munchausen-like tongue; and yet I doubt if he enjoyed the awful, red-hot, sizzling roast which Huckle gave him, and which caused boy Billy to writhe and twist, like unto a sea serpent sadly afflicted with the cramp colic. Poor Billy—even his worst enemies would have pitied him had they been present.

EYEWITNESS.

FOOLISH WELLSVILLE.

Threatens To Quarantine This City For a Little Thing.

The board meets again Saturday night and they have invited the East Liverpool board to meet with them, in order to insure the better working of plans, as Liverpool has far trusted to notifying the Cleveland and Pittsburgh authorities to receive no freight, nor sell tickets at the stations in the infected towns. It is probable that unless East Liverpool exercises more caution and adopts a more vigorous policy, quarantine may be enforced against our sister city.—Wellsville Union.

Wellsville would be doing a most foolish thing to quarantine against this city. There is about as much danger of the smallpox spreading in this town as there is of its people falling off the earth.

THE BLIZZARD.

It Came Down With a Rush and Lowered the Mercury.

The warm, wet weather was dispelled last night by a blizzard which came howling down from the northwest and made walking on the streets almost an impossibility. The rain gave way to sleet driven by a high wind, and that to snow, which covered

the trees and ground for many miles around. When the sun rose this morning the valley was a sight worthy the attention it received. Every tree was a white draped form and every fence possessed more beauty than it has had any time during the season. The weather men say it will be colder.

THE SECOND TIME.

A Salem Woman Will Endeavor To Get a Divorce.

Special to the NEWS REVIEW.

LISBON, Dec. 27.—Rose E. Moncrief, of Salem, filed her second divorce action today, and wants the court to separate her from her husband, William A. Moncrief. She charges him with a serious offense and names Agnes Cooley and Bertha Dugan, of Salem, as corespondents.

Elliott Zeppernick, a Butler township farmer, and J. T. Wilson, a Lisbon merchant, made assignments today.

Marriage licenses were issued today as follows: William J. Douglas and Laura M. Malone; Isaac Swickard and Martha E. Crawford; William Feeter and Julia Gregory; Louis Shugart and Mary Ealer; G. H. Craven and Emma Householder.

EARLIER THAN USUAL.

Will the County Republican Primaries be Held.

Secretary Hanley, of the county Republican committee, today sent out notices to the members of the executive committee, calling them to meet in Lisbon on Jan. 7, for the purpose of appointing a day for the primaries and transacting other important business. The primaries will be held much earlier than usual because of the national convention coming in June. It is necessary that the delegates, chosen at the congressional convention, be selected 60 days before the great event, and the state convention must also meet and have its delegates at large. The county convention will as usual meet soon after the primaries.

A FINE EQUIPMENT.

Gymnasium Have Something New in Athletics.

The gymnasium at the Young Men's Christian association is being fitted out as well as any in this part of the country, much to the gratification of the boys, who think it a good thing. Yesterday two dozen stout sticks were purchased, and the classes will soon begin the pretty wand drill. The gymnasium has also been provided with a new set of dumb bells, and Director Morris proposes to have all his classes well trained in this direction. The ladies will soon resume their regular drills at the gymnasium.

TO PARDON CONKLE.

A Petition Is Being Circulated in Town Today.

A petition is being circulated today asking for the pardon of J. S. Conkle, whose arrest, charged with criminally assaulting a little girl in town a few months ago, caused such a stir. It is being liberally signed, and indications point to a favorable answer. Conkle pleaded guilty to assault and battery, and was given a sentence of five months to the workhouse. He has served a part of this and facts that have since developed prompt the belief that he was not as black as he was painted.

STOP IT.

Coasting Should Not Be Allowed on Sidewalks.

"I am not a grumpy old man, and I want to see the boys have all the fun they can, but I think the authorities should move in this matter of allowing coasting on the sidewalks. It should not be allowed. Last year we saw its result in the accident to Mr. Walters, and they are liable to happen at any time. If the police would confine every boy with a sled to the street, and arrest the first one who helped to make the sidewalk impassable, the city may be saved a big bill for damages."

BROKE A FEW BONES.

Charles Bean Fell Off a Box at the Light Plant.

Charles Bean, employed at the light plant, was standing on a box last evening doing some work, when he lost his equilibrium and fell to the ground. As he went down his foot caught in some obstruction and he sustained a painful injury. The top of the foot was torn and mangled, and a few bones were broken in the ankle. Bean has been working here for a year having come from Cincinnati, and after the accident was taken to his boarding house on Fifth street.

Leap Year Parties.

A number of leap year parties are in contemplation by young people in the city, and several will take place the second week in January.

NOT GUILTY THEY SAY

Saloonists Thompson and Hughes So Plead.

TEST CASES TO BE MADE

It is Understood That a Hard Legal Fight Will Be Brought to Settle the Matter. Time For Hearing Not Yet Decided, But It Will Not Be This Week.

It seems as though the ordinances governing the sale of liquor in the city are to be thoroughly tested by the saloon men, and that as soon as Mayor Gilbert will appoint the day for hearings in the cases of William Thompson and Harry Hughes.

Thompson was arrested on a warrant several days ago, and appeared yesterday afternoon, but asked for time to consider his plea. It was accorded him, and he came again this morning telling the mayor that he was not guilty. Harry Hughes, the Fourth street saloonist, was the other man, and he too decided that he was not guilty. Mayor Gilbert has not yet set the time for hearing, but it will likely not be this week.

The reason for the deliberate action on the part of Thompson, it is claimed, can be found in the fact that the saloon men are determined to test the ordinance governing the matter. Whether Mayor Gilbert will grant a jury trial is not known, but the fact that he has not been doing that during the past few months because of the expense upon the city is grounds for the belief that he will follow his rule.

Three Weddings.

Mr. Norman Blazer and Miss Mary Kelly were married on Tuesday at the residence of George Thomas, by Rev. Huston, D. D.

On Christmas, Doctor Huston said the words that made Mr. F. L. Lawers and Miss Minnie Williams man and wife.

Mr. Fred W. Harrison and Miss Callie Marsh were married on Tuesday evening by Rev. J. C. Taggart, D. D., at his residence on East Market street.

Fred Hulme, a well known young man who is employed at Laughlin's as a dipper, was married on Christmas night to Miss Ellen Chadwick, at the residence of Squire Manley.

John Henderson's Thanks.

John Henderson desires through the NEWS REVIEW to thank the members of the Phoenix club for the kindly manner in which he was remembered on Christmas day. He says that to him who has no father, mother, or living relative the token from those who were showered with gifts is particularly acceptable. The NEWS REVIEW regrets that it has not the space to place in cold type the warm words of thankful John Henderson.

A Car For Each Man.

It is said that an arrangement will soon be made whereby each motorman in the service of the street railway company will be assigned a car, and he will work on that and no other, unless there will be an accident to prevent it. The system, it is believed, will result in each man taking good care of his car, and keeping it in good order.

A Sneak Thief.

A sneak thief entered an East End house last night when the family were out, and stole all the available articles of value that he could find. The principal loss was a silver inkstand, a Christmas gift. The matter was not reported to the police as the family believe they know the thief, and hope to recover the articles without an arrest.

Will Start Next Week.

Several potteries will start next week, among them being the Union and Sebring's. Others cannot have repairs completed until the week following, when they, too, will fall into line. It is expected that business will be brisk after the first few weeks of the year, and will continue until the summer rest at least.

Almost Ready.

A kiln was placed at the Standard yesterday and will be drawn on Monday, while work in the new pottery will be commenced some time during next week. The carpenters will complete putting down the floors tomorrow, and expect to have the building done this week.

A Pitiable Sight.

A pitiable sight was witnessed in the upper part of the city the other day when a small boy was seen leading his drunken father to their home. Many people who witnessed the scene remarked about it.

THE SECOND TIME.

A Salem Woman Will Endeavor To Get a Divorce.

Special to the News Review.

LISBON, Dec. 27.—Rose E. Monerief, of Salem, filed her second divorce action today, and wants the court to separate her from her husband, William A. Monerief. She charges him with a serious offense and names Agnes Cooley and Bertha Dugan, of Salem, as correspondents.

Elliott Zeppernick, a Butler township farmer, and J. T. Wilson, a Lisbon merchant, made assignments today.

Marriage licenses were issued today as follows: William J. Douglas and Laura M. Malone; Isaac Swickard and Martha E. Crawford; William Feeter and Julia Gregory; Louis Shugart and Mary Euler; G. H. Craven and Emma Householder.

EARLIER THAN USUAL.

Will the County Republican Primaries be Held.

Secretary Hanley, of the county Republican committee, today sent out notices to the members of the executive committee, calling them to meet in Lisbon on Jan. 7, for the purpose of appointing a day for the primaries and transacting other important business. The primaries will be held much earlier than usual because of the national convention coming in June. It is necessary that the delegates, chosen at the congressional convention, be selected 60 days before the great event, and the state convention must also meet and have its delegates at large. The county convention will be held as usual soon after the primaries.

A FINE EQUIPMENT.

Gymnasium Have Something New in Athletics.

The gymnasium at the Young Men's Christian association is being fitted out as well as any in this part of the country, much to the gratification of the boys, who think it a good thing. Yesterday two dozen stout sticks were purchased, and the classes will soon begin the pretty wand drill. The gymnasium has also been provided with a new set of dumb bells, and Director Morris proposes to have all his classes well trained in this direction. The ladies will soon resume their regular drills at the gymnasium.

TO PARDON CONKLE.

A Petition Is Being Circulated in Town Today.

A petition is being circulated today asking for the pardon of J. S. Conkle, whose arrest, charged with criminally assaulting a little girl in town a few months ago, caused such a stir. It is being liberally signed, and indications point to a favorable answer. Conkle pleaded guilty to assault and battery, and was given a sentence of five months to the workhouse. He has served a part of this and facts that have since developed prompt the belief that he was not as black as he was painted.

STOP IT.

Coasting Should Not Be Allowed on Sidewalks.

"I am not a grumpy old man, and I want to see the boys have all the fun they can, but I think the authorities should move in this matter of allowing coasting on the sidewalks. It should not be allowed. Last year we saw its result in the accident to Mr. Walters, and they are liable to happen at any time. If the police would confine every boy with a sled to the street, and arrest the first one who helped to make the sidewalk impassable, the city may be saved a big bill for damages."

BROKE A FEW BONES.

Charles Bean Fell Off a Box at the Light Plant.

Charles Bean, employed at the light plant, was standing on a box last evening doing some work, when he lost his equilibrium and fell to the ground. As he went down his foot caught in some obstruction and he sustained a painful injury. The top of the foot was torn and mangled, and a few bones were broken in the ankle. Bean has been working here for a year having come from Cincinnati, and after the accident was taken to his boarding house on Fifth street.

Leap Year Parties.

A number of leap year parties are in contemplation by young people in the city, and several will take place the second week in January.

NOT GUILTY THEY SAY

Saloonists Thompson and Hughes So Plead.

TEST CASES TO BE MADE

It is Understood That a Hard Legal Fight Will be Brought to Settle the Matter. Time For Hearing Not Yet Decided, But It Will Not be This Week.

It seems as though the ordinances governing the sale of liquor in the city are to be thoroughly tested by the saloon men, and that as soon as Mayor Gilbert will appoint the day for hearings in the cases of William Thompson and Harry Hughes.

Thompson was arrested on a warrant several days ago, and appeared yesterday afternoon, but asked for time to consider his plea. It was accorded him, and he came again this morning telling the mayor that he was not guilty. Harry Hughes, the Fourth street saloonist, was the other man, and he too decided that he was not guilty. Mayor Gilbert has not yet set the time for hearing, but it will likely not be this week.

The reason for the deliberate action on the part of Thompson, it is claimed, can be found in the fact that the saloon men are determined to test the ordinance governing the matter. Whether Mayor Gilbert will grant a jury trial is not known, but the fact that he has not been doing that during the past few months because of the expense upon the city is grounds for the belief that he will follow his rule.

Three Weddings.

Mr. Norman Blazier and Miss Mary Kelly were married on Tuesday at the residence of George Thomas, by Rev. Huston, D. D.

On Christmas, Doctor Huston said the words that made Mr. F. L. Lawers and Miss Minnie Williams man and wife.

Mr. Fred W. Harrison and Miss Callie Marsh were married on Tuesday evening by Rev. J. C. Taggart, D. D., at his residence on East Market street.

Fred Hulme, a well known young man who is employed at Laughlin's as a dipper, was married on Christmas night to Miss Ellen Chadwick, at the residence of Squire Manley.

John Henderson's Thanks.

John Henderson desires through the News Review to thank the members of the Phoenix club for the kindly manner in which he was remembered on Christmas day. He says that to him who has no father, mother, or living relative the token from those who were showered with gifts is particularly acceptable. The News Review regrets that it has not the space to place in cold type the warm words of thankful John Henderson.

A Car For Each Man.

It is said that an arrangement will soon be made whereby each motorman in the service of the street railway company will be assigned a car, and he will work on that and no other, unless there will be an accident to prevent it. The system, it is believed, will result in each man taking good care of his car, and keeping it in good order.

A Sneak Thief.

A sneak thief entered an East End house last night when the family were out, and stole all the available articles of value that he could find. The principal loss was a silver inkstand, a Christmas gift. The matter was not reported to the police as the family believe they know the thief, and hope to recover the articles without an arrest.

Will Start Next Week.

Several potteries will start next week, among them being the Union and Sebring's. Others cannot have repairs completed until the week following, when they, too, will fall into line. It is expected that business will be brisk after the first few weeks of the year, and will continue until the summer rest at least.

Almost Ready.

A kiln was placed at the Standard yesterday and will be drawn on Monday, while work in the new pottery will be commenced some time during next week. The carpenters will complete putting down the floors tomorrow, and expect to have the building done this week.

A Pitiable Sight.

A pitiable sight was witnessed in the upper part of the city the other day when a small boy was seen leading his drunken father to their home. Many people who witnessed the scene remarked about it.

Spanish Strengthening Fortifications at Havana.

GOMEZ IS NOT ON A RETREAT.

The Spanish Declare He Is, but Their Actions Contradict the Statement.

25,000 Men on Hand to Defend Havana—Gomez Has About 10,000.

HAVANA, Dec. 27.—Since the arrival here of Captain General Martinez de Campos from Matanzas he has been in conference with leading military and naval officials, the civil dignitaries and the leaders of the different political parties.

The captain general, upon his arrival here, announced that the Spanish troops in Matanzas occupied advantageous positions, and that the Cubans would either be compelled to fight a pitched battle in that province or surrender. It is not generally believed, as has been stated by the Spaniards, that the march of Gomez and Maceo upon Havana has really been stopped and that they are in retreat. In support of this it is said that if Gomez and Maceo were retreating, the government would not be slow in making public every item of news obtainable concerning this feature of the hitherto triumphant march of the insurgents from the province of Puerto Principe, through the province of Santa Clara and the province of Matanzas and to the vicinity of the borders of the province of Havana in spite of the numerous columns of Spanish troops in the territory traversed. The fact is that so many announcements have been made by the Spanish of the defeat and retreat of the insurgents which have proved false that it will require strong confirmation to make anybody here believe that such is an actual fact.

The absence of news of the movements of the insurgents is causing some anxiety among their friends here, but they claim Gomez and Maceo are in possession of the railroad and telegraph lines, and that it is with difficulty that Campos succeeded in reaching Havana.

In the meanwhile active preparations are being made here for the defense and forwarding to the front all the troops which can be spared. It is even out that the Spanish columns in the rear of the insurgent army have been ordered to concentrate as quickly as possible on the frontier of Matanzas and that every effort is to be made to prevent the retreat of the Cubans into Santa Clara.

While these preparations are being made to apparently stop the insurgents from escaping back into Santa Clara, the land fortifications of Havana are receiving attention day and night. A number of additional earthworks have been thrown up during the last month also, and these are being hastily completed and supplied with guns as rapidly as possible. The magazines are being plentifully supplied with ammu-

nition and the outposts of the Spanish troops around Havana are being strengthened and more securely fortified.

There has been an era of hurry and anxiety at the different headquarters here which does not seem to indicate that the supreme authorities are in any way satisfied that the insurgents are retreating, and if military activity goes for anything, the most determined efforts are being made to prevent a surprise.

There is considerable speculation here as to the actual number of men under the command of Gomez and Maceo. The highest estimates have it that the Cuban army numbers 12,000 men, while the lowest number of followers of the insurgent leaders are credited with having under their command is 6,000. It is to be presumed, however, that Gomez and Maceo may have 10,000 men with them, as they are known to have been joined by large numbers of adherents since they entered the province of Matanzas. The insurgents have also been plentifully supplied with ammunition, said to have been stored for their use at different points and accumulated and hidden for months past.

In order to enable as many troops as possible to be sent to the front, all the marines and sailors who could be spared from the Spanish fleet have been landed and the forts are now doing duty as artillerymen or at what ever they are needed. All the volunteers available are under arms and every male inhabitant capable of doing active service or of finding somebody else to do it for him has been or is being called upon to bear arms.

A conservative estimate of the force at the disposal of the captain general has been made and it is estimated that he has 20,000 regulars and about 5,000 volunteers with which to meet the insurgent army. But the Spanish regulars and volunteers are scattered over a large expanse of forts and fortifications comprising the defense of Havana, and when the brilliant achievement of Gomez and Maceo in passing through the many Spanish columns, said to number from 40,000 to 50,000 men, in the provinces of Santa Clara and Matanzas is taken into consideration there is some justification for the belief of the friends of the insurgent cause that it will not be long before Gomez and Maceo are outside of Havana.

TARIFF BILL PASSED.

Democrats Made a Hot Fight on the Measure.

THE VOTE STOOD 205 TO 81.

One Republican Voted Against the Bill and One Populist For It—The Measure Forced to a Speedy Vote by the Adoption of an Ironclad Rule.

WASHINGTON, Dec. 27.—The tariff bill has passed the house by a vote of 205 to 81.

Before the bill was debated and acted on, Mr. Henderson (Rep., Ia.), from the committee on rules, presented the special order under which the house was to operate. It was ironclad in its character. It provided that immediately after the adoption of the order, it would be in order to call up the revenue bill just presented by Mr. Dingley, and that the debate should run for a specified time, when, without intervening motion, the vote should be taken on the passage of the bill.

The Democrats raised an objection, saying it was a scheme to pass the bill under the lash of the party whip. The Republicans retorted that the conduct of the Democrats when the Wilson bill was passed warranted such action, and furthermore the financial condition of the country and the urgency argued for by the president's message demanded quick work. The rule passed by a vote of 213 to 89, Linney (N. C.) and Connolly (Ills.) voting with the Democrats.

The bill was then read by the direction of the speaker who said that Mr. Dingley would be recognized to control the time on one side and Mr. Crisp on the other. Mr. Dingley took the floor in advocacy of the bill and said the Republicans had assumed the responsibility placed on them by the president in a patriotic manner and had gone to work to prepare measures to meet the treasury situation. He then launched into an explanation of the cause of the existing weakness of the treasury, following closely the lines of his report of the bill. In the last Congress it was stated, as it was stated now, that there was ample revenue. The Democrats had predicted that the revenues would soon meet the expenditures—next day, next week, next month, the surplus would begin. But what had happened. Every day and every month since had shown a deficiency. Since July, 1894, the deficiency had reached the enormous sum of \$135,000,000.

He described the method by which the proceeds of the bond sales, after being issued to redeem greenbacks, had been paid again to meet current expenses, only to come back again to the treasury as gold demands. It was only when sufficient revenue came into the treasury that the gold reserve could be protected. The ways and means committee had decided that this revenue should be obtained from customs duties for two reasons:

First—Over \$150,000,000 was now being raised from excise taxes, and it was a well founded policy of the government, in the time of peace, to obtain the bulk of the revenues from duties on imports.

Second—An increase of customs duties would tend to turn the balance of trade in our favor. Until the balance of trade was in our favor, Mr. Dingley contended, gold must go abroad to pay the balance against us. The bill proposed by the committee in the next 24 years, during which it was to operate, would raise about \$40,000,000 and stop the deficiency that was causing the disaster. Mr. Dingley then explained in detail as he did in his report, arguments that had been obtained in fixing the duties on wool and woolsens, timber, etc., which were not included in the horizon of a 5 per cent. increase. He closed with an explanation that this was not a general revenue bill and said that the general change needed would be postponed until the other branches of the government were in harmony with the house.

Mr. Crisp, who followed Mr. Dingley, said the latter had asserted that this extraordinary bill had been precipitated upon the country and then presented its message. In making this assertion Mr. Dingley had not observed his usual care. If, said Mr. Crisp, the president's message had been the cause of this effort at legislation, the legislation adopted should be in the line of the president's suggestions. It had been claimed on the other side that there was a deficiency in the revenues, but the statement was wholly without official authority. The secretary of the treasury had positively stated that there was sufficient money in the treasury to meet all obligations, and that there was no necessity for imposing additional burdens in the way of taxation.

It was true, Mr. Crisp confessed, that the daily receipts were smaller than the daily expenditures, but there was a surplus in the vaults of the treasury sufficient to meet any probable deficiency three times over. It was not a question of borrowing money, but a question of using an asset which we have already—a question of getting money to pile up in the treasury. Mr. Crisp then proceeded to argue that the McKinley law had been responsible for whatever deficiency there was. He instanced the fact that the receipts under this law had fallen off until during the four months preceding the inauguration of Mr. Cleveland there was a deficiency of over \$1,000,000. This shortage had, he said, occurred under a law which was the peculiar pet of the Republican party, a law which no Republican could be expected to criticize, possibly because of the name of the law, typical of the Republican party, so named as to decrease the receipts of the treasury and increase those of private individuals favored by its provisions. It was under this bill that the revenue had fallen. Furthermore, he had understood Mr. Dingley to say that there had been no exportation of gold previous to the inauguration of the Democratic administration, whereas, as a matter of fact, more than \$35,000,000 of gold had been sent abroad during the nine months immediately preceding March, 1893.

Other Republicans also spoke, and all contended that the first necessity of the treasury was revenue to supply the

continued deficiency. Every speaker denied that the proposed measure was a Republican protection bill. It was, they claimed, an emergency revenue bill on protective lines. It was significant that several, notably Mr. Dalzell, Mr. Payne, Mr. Hopkins and Mr. Grosvenor, predicted the passage of a genuine protective measure as soon as the Republicans gained control of the white house. The Democrats took the position that there was no lack of revenue in the treasury, and that the passage of a bill to increase taxation would in no wise help the situation nor furnish the relief desired by the president and secretary of the treasury. All who took part in the debate acquitted themselves well. Mr. Dingley and Mr. Doliver of the Republicans and Mr. Crisp and Mr. Turner of the Democrats carried off the honors.

The bill passed repeals the present tariff law until Aug. 1, 1898. It restores 60 per cent of the McKinley rates on wool and woolsens, lumber and carpets and makes a horizontal increase of the present rates in all other schedules, except sugar, of 15 per cent. The operation of the measure is limited to two and a half years and is designed to raise \$40,000,000 for the relief of the treasury. The vote was on party lines, with two exceptions. The Republicans all voted for the bill except Hartman of Montana, who did not vote, and the Democrats and Populists against it, save Newlands (Pop., Nev.), who voted in favor of the measure.

RUSSIA'S OFFER OF GOLD.

More Facts Come to Light Giving the True Version of the Matter.

WASHINGTON, Dec. 27.—More facts in regard to Russia's offer in 1893 to supply this government with gold with which to meet the emergency existing at that time, have come to light. It can now be stated on unquestionable authority that during the panic of three years ago which resulted in heavy withdrawals of gold for export, the czar of Russia through his minister here, Prince Cantacuzene, formally tendered to this government a loan of \$60,000,000 for the term of three years. No specific rate of interest was named, nor were any details as to terms of repayment entered into, the proposition not passing to this stage. It was simply a generous offer of a nation on particularly friendly terms with ours, and was not coupled with any hard conditions such as might have been expected from a power on a less friendly footing with the United States. Mr. Cleveland after due deliberation very courteously declined the offer.

He recognized the unselfish generosity of the offer and the very friendly feeling that prompted it, but he was unwilling to accept, fearing that at some future time it might result in entanglements with other European nations which it always has been the policy of the United States to avoid. The offer has not since been repeated. In the event of another bond issue, however, it possibly may result in the loan being placed with Russian capitalists, and it is probable the president has given some thought to the advisability of proposing terms with other European nations in case all of the bonds are not placed in the United States. At present, however, the matter of a bond issue is not being considered by the president.

A MEASURE OF RELIEF.

The action of the house of represent-
 atives in passing a bill that will in a
 measure relieve the straightened cir-
 cumstances into which the govern-
 ment has fallen, can not but receive
 opposition from some quarters, and
 with a show of reason, but it will not
 be for long. They argue that the
 president and his party have cut down
 revenues until it was necessary to
 plunge the nation into debt to relieve
 the stress; and they are right, as they
 are in the presumption that Mr.
 Cleveland gladly welcomes an action
 on the part of the Republicans that
 will keep the gold reserve intact, and
 make a more solid basis for the safe
 transaction of business. But they
 can not be altogether right when they
 say the relief bill is not the right
 thing, and that Republican congress-
 men had been sent to Washington to
 form a protective and not a revenue
 tariff. Mr. Cleveland ever holds in
 his hand the veto pen, and he has the
 ability to use it whenever it suits Mr.
 Cleveland. Anything but a measure
 for more revenue without a thought
 of protection would be met by the
 official negative. He will not allow
 the industries of the country to have
 a whole loaf, but he is willing to give
 them a slice; he will not recede in
 words from his position that the
 duties of the Wilson bill are too high,
 but he will, with various explanations,
 show that he will help the cause of
 more revenue. On the other hand
 the Republicans know the sentiment
 of the president, and realize that their
 constituents expect them to move.
 They know that anything is relief
 even though it is not a protective
 tariff in the fullest meaning of the
 expression. They are willing to take
 that slice rather than be as hungry as
 they have been during the past few
 years, knowing that the relief will be
 but temporary. Then when a Repub-
 lican president is in position to sanc-
 tion the laws of a Republican con-
 gress, the full measure of protection
 can be dealt out to an expectant peo-
 ple. The proposed law is not a prece-
 dent; it is simply a measure of relief,
 a part of the whole which will come in
 time.

TARIFF BILL PASSED.

Democrats Made a Hot Fight

THE VOTE STOOD 205 TO 81.

 fied time, when, without intervening
 motion, the vote should be taken on
 the passage of the bill.

The Democrats raised an objection,
 saying it was a scheme to pass the bill
 under the lash of the party whip. The
 Republicans retorted that the conduct
 of the Democrats when the Wilson bill
 was passed warranted such action, and
 furthermore the financial condition of
 the country and the urgency argued
 for by the president's message de-
 manded quick work. The rule passed
 by a vote of 213 to 89, Linney (N. C.)
 and Connolly (Ill.) voting with the
 Democrats.

The bill was then read by the direc-
 tion of the speaker who said that Mr.
 Dingley would be recognized to con-
 trol the time on one side and Mr. Crisp
 on the other. Mr. Dingley took the
 floor in advocacy of the bill and said
 the Republicans had assumed the re-
 sponsibility placed on them by the
 president in a patriotic manner and
 had gone to work to prepare measures
 to meet the treasury situation. He
 then launched into an explanation of
 the cause of the existing weakness of
 the treasury, following closely the
 lines of his report of the bill. In the
 last congress it was stated, as it was
 stated now, that there was ample re-
 venue. The Democrats had predicted
 that the revenues would soon meet the
 expenditures—next day, next week,
 next month, the surplus would begin.
 But what had happened. Every day
 and every month since had shown a
 deficiency. Since July, 1894, the defi-
 ciency had reached the enormous sum
 of \$133,000,000.

He described the method by which
 the proceeds of the bond sales, after
 being issued to redeem greenbacks, had
 been paid again to meet current ex-
 penses, only to come back again to the
 treasury as gold demands. It was only
 when sufficient revenue came into the
 treasury that the gold demands could
 be protected. The ways and means com-
 mittee had decided that this revenue
 should be obtained from customs duties
 for two reasons:

First—Over \$150,000,000 was now be-
 ing raised from excise taxes, and it was
 a well founded policy of the govern-
 ment at the time of peace, to obtain
 the bulk of the revenues from duties on
 imports.

Second—An increase of customs du-
 ties would tend to turn the balance of
 trade in our favor. Until the balance
 of trade was in our favor, Mr. Dingley
 contended, gold must go abroad to pay
 the balance against us. The bill pro-
 posed by the committee in the next 2½
 years, during which it was to operate,
 would raise about \$40,000,000 and stop
 the deficiency that was caused by the dis-
 aster. Mr. Dingley then explained in
 detail, as he did in his report, argu-
 ments that had obtained in fixing the
 duties on wool and woollens, timber,
 etc., which were not included in the
 horrid 5 per cent increase of 5 per cent.
 He closed with an explanation that this
 was not a general revenue bill and said
 that the general change needed would
 be postponed until the other branches
 of the government were in harmony
 with the house.

Mr. Crisp, who followed Mr. Dingley,
 said the latter had asserted that this
 extraordinary bill had been precipi-
 tated upon the country and the extra-
 ordinary spectacle created by the presi-
 dent's message. In making this assertion
 Mr. Dingley had not observed his
 usual care. If, said Mr. Crisp, the
 president's message had been the cause
 of this effort at legislation, the legisla-
 tion attempted should be in the line of
 the president's suggestions. It had been
 claimed on the other side that there
 was a deficiency in the revenues, but
 the statement was wholly without
 official authority. The secretary of the
 treasury had positively stated that there
 was sufficient money in the treasury to
 meet all obligations, and that there was
 no necessity for imposing additional
 burdens in the way of taxation.

It was true, Mr. Crisp confessed, that
 the daily receipts were smaller than
 the daily expenditures, but there was a
 surplus in the vaults of the treasury
 sufficient to meet any probable defi-
 ciency three times over. It was not a
 question of borrowing money, but a
 question of using an asset which we
 have already—a question of getting
 money to pile up in the treasury. Mr.
 Crisp then proceeded to argue that the
 McKinley law had been responsible for
 whatever deficiency there was. He in-
 stanced the fact that the receipts under
 this law had fallen off until during the
 four months preceding the inaugura-
 tion of Mr. Cleveland there was a defi-
 ciency of over \$1,000,000. This short-
 age had, he said, occurred under a law
 which was the peculiar pet of the Re-
 publican party, a law which no Repub-
 lican had seen fit to criticize, possibly
 because of the fact that it was a de-
 feat of the Republican party, so framed
 as to decrease the receipts of the treas-
 ury and increase those of private ind-
 ividuals favored by its provisions. It
 was under this bill that the revenue
 had fallen. Furthermore, he had un-
 derstood Mr. Dingley to say that there
 had been no exportation of gold pre-
 vious to the inauguration of the Demo-
 cratic administration, whereas, as a
 matter of fact, more than \$38,000,000
 of gold had been sent abroad during
 the nine months immediately preced-
 ing March, 1893.

Other Republicans also spoke, and
 all contended that the first necessity of
 the treasury was revenue to supply the

continued deficiency. Every speaker
 denied that the proposed measure was
 a Republican protection bill. It was,
 they claimed, an emergency revenue
 bill on protective lines. It was signifi-
 cant that several, notably Mr. Dalzell,
 Mr. Payne, Mr. Hopkins and Mr. Gros-
 venor, predicted the passage of a gen-
 uine protective measure as soon as the
 Republicans gained control of the
 white house. The Democrats took the
 position, there was no lack of re-
 venue in the treasury, and that the pas-
 sage of a bill to increase taxation would
 in no wise help the situation nor fur-
 nish the relief desired by the president
 and secretary of the treasury. All who
 took part in the debate acquitted them-
 selves well. Mr. Dingley and Mr. Dol-
 liver of the Republicans and Mr. Crisp
 and Mr. Turner of the Democrats car-
 ried off the honors.

The bill passed repeals the present
 tariff law until Aug. 1, 1898. It re-
 stores 60 per cent of the McKinley rates
 on wool and woollens, lumber and car-
 pets and makes a horizontal increase of
 the present rates in all other schedules,
 except sugar, of 15 per cent. The oper-
 ation of the measure is limited to two
 and a half years and is designed to
 raise \$40,000,000 for the relief of the
 treasury. The vote was on party lines,
 with two exceptions. The Republicans
 all voted for the bill except Hartman of
 Montana, who did not vote, and the
 Democrats and Populists against it,
 save Newlands (Pop., Nev.), who voted
 in favor of the measure.

RUSSIA'S OFFER OF GOLD.

More Facts Come to Light Giving the
 True Version of the Matter.

WASHINGTON, Dec. 27.—More facts in
 regard to Russia's offer in 1893 to sup-
 ply this government with gold with
 which to meet the emergency existing
 at that time, have come to light. It
 can now be stated on unquestionable
 authority that during the panic of three
 years ago which resulted in heavy
 withdrawals of gold for export, the
 czar of Russia through his minister
 here, Prince Cantacuzene, formally
 tendered to this government a loan of
 \$50,000,000 for the term of three years.
 No specific rate of interest was named,
 nor were any details as to terms of re-
 payment entered into, the proposition
 not passing to this stage. It was sim-
 ply a generous offer of a nation on com-
 mercially friendly terms with ours, and
 was not coupled with any hard condi-
 tions such as might have been reason-
 ably expected from a power on a less
 friendly footing with the United States.
 Mr. Cleveland after due deliberation
 very courteously declined the offer.

He recognized the unselfish generosity
 of the offer and the very friendly feel-
 ing that prompted it, but he was un-
 willing to accept, fearing that at some
 future time it might result in entangle-
 ments with other European nations
 which it always has been the policy of
 the United States to avoid. The offer
 has not since been repeated. In the
 event of another bond issue, however,
 it possibly may result in the loan being
 placed with Russian capitalists, and it
 is probable the president has given
 some thought to the advisability of
 proposing terms with them rather than
 with capitalists of other European na-
 tions in case all of the bonds are not
 placed in the United States. At pres-
 ent, however, the matter of a bond is-
 sue is not being considered by the presi-
 dent.

SPAIN VERY HOSTILE.
Tells England She Opposes Cleveland's Message.

AN EUROPEAN ALLIANCE LIKELY.

France, Spain and Holland Expected to Unite With England Against Us—President Cleveland Busy Selecting Members of the Venezuelan Commission.

LONDON, Dec. 27.—The Vienna correspondent of The Daily News says that Spain has already notified the British government of its opposition to President Cleveland, and that it is believed that the four states, Great Britain, France, Spain and Holland, will form a quadruple alliance to protect their American possessions against the United States.

A Washington special says: The selection of the members of the Venezuelan boundary commission is consuming practically the president's entire time. It is understood that Chief Justice Fuller's health will not permit him to serve on the commission and that the president will not insist further on his acceptance. Mr. Justice Brewer's name has come prominently forward and it is thought that he or Mr. Justice Brown may be selected to serve in the chief justice's place at the head of the commission. The whole question of the personnel of the commission is still in an inchoate state and it may be a day or two yet and possibly longer before it is completed and announced.

Less Roads Constructed This Year Than For Twenty Years Past.

CHICAGO, Dec. 27.—According to today's issue of the Railroad Age, railroad building in the United States reached this year a lower point than in any of the last 20 years and in only two years since 1865, has so small a mileage been built. The records for 1869 show only 1,782 miles of track laid. In the eight years since that time the decrease in construction has been great and continuous and this year the total built was only about 100 miles more than in the year 1865—40 years ago.

The greatest amount of track laid was in Texas, where 224 miles were put down. In 19 states no increase whatever was made. The railroads of the United States on Dec. 31, will aggregate little over 181,000 miles.

There were a number of sleighs on the streets this morning, and while the snow is not deep the sleighing is very good.

J. J. Purinton has received a photograph of the spot where Frank Lenz is thought to have been murdered by Kurds in Turkey.

Someone with a desire to destroy, mashed an arc light on Sheridan avenue last night. The globe was broken, and the lamp seriously injured.

Work at the new quarters of the NEWS REVIEW in the First National bank building is almost completed, and the machinery will in part be placed this week.

All the people who filled up with corn juice to celebrate Christmas, have not as yet sobered up, there being quite a number seen on the streets yesterday and today.

One of the most important events of the year for the Masons is the observance of St. John's day, which will in this city be carried out this evening by a banquet and ball.

Street car men had a slippery track on which to work today, and for a few hours this morning the Washington street hill was as dangerous as it usually gets. There were no accidents.

The river is rising and the Ben Hur and Bedford passed last night. The Little Fred left some coal here. The storm last evening compelled many boats to tie up wherever it was convenient, but no accidents were reported.

George Zink, of Third street, lost a dog the other day, and advertised it in the NEWS REVIEW. A man living near Wellsville saw the advertisement, answered it, and now Mr. Zink is convinced that advertising in the NEWS REVIEW pays.

An explanation of the happening at a West Market street residence last week, which resulted in two men taking a hurried departure and the firing of a shot, now appears. It seems that one of the visitors insulted the wife of the household, and the husband became angry.

"I don't believe there will be much of a fight before the county primaries," said a prominent Republican today. "There are one or two leaders for every office, with a lot of others a good distance behind. Unless there are some radical changes, there will be little to interest the casual observer."

Workmen at the power house are rapidly arranging the new cars for service on the line and expect to have them out in a day or two. Two cars are undergoing treatment, the others that were shipped when they left Cleveland having failed to arrive. It will not be long until the present undesirable schedule can be changed to one that is more convenient.

S. W. Durkee is carrying the mail between the station and the postoffice, Nelson Cornell being unfit for duty. He was vaccinated a few days ago, and now his arm is so badly swollen and gives him so much pain that he can not work. There are many other sore arms in the city, the force at the freight depot having just started to feel the effects of the visit made by the company's doctor.

The second day after the den near the Salvation Army barracks was pulled, a well known married man, the father of grown up children, was seen entering the infamous place, and he was very lucky to escape arrest. Such men have no respect for themselves or their families, and the full penalty of the law should be inflicted upon them. Let the ordinances be enforced. Turn on the light.

It has just leaked out that there was an interesting scene in a residence in the West End the other day. A neighbor entered the house and charged the owner with sending her an anonymous letter. The man denied it, but the woman persisted in her story, and at length the pair became so angry that the visitor picked up a fire shovel and struck the man on the cheek. Then she left the house, and the man did not attempt to resent the blow.

"Colonel" Parker, who lives in the alley between Broadway and Walnut streets, decided yesterday afternoon that the war was not over or was making preparations to take part in the struggle with Great Britain, and accordingly filled himself up with bad whisky and went home in a decidedly intoxicated condition and started the war at once. He was arrested by Officer Whan and taken to city hall, where he was given a chance to change his mind and to help the city's finances, which he did.

SPAIN VERY HOSTILE.
Tells England She Opposes Cleveland's Message.

AN EUROPEAN ALLIANCE LIKELY.
France, Spain and Holland Expected to Unite With England Against Us—President Cleveland Busy Selecting Members of the Venezuelan Commission.

LONDON, Dec. 27.—The Vienna correspondent of The Daily News says that Spain has already notified the British government of its opposition to President Cleveland, and that it is believed that the four states, Great Britain, France, Spain and Holland, will form a quadruple alliance to protect their American possessions against the United States.

A Washington special says: The selection of the members of the Venezuelan boundary commission is consuming practically the president's entire time. It is understood that Chief Justice Fuller's health will not permit him to serve on the commission and that the president will not insist further on his acceptance. Mr. Justice Brewer's name has come prominently forward and it is thought that he or Mr. Justice Brown may be selected to serve in the chief justice's place at the head of the commission. The whole question of the personnel of the commission is still in an inchoate state and it may be a day or two yet and possibly longer before it is completed and announced.

Less Roads Constructed This Year Than For Twenty Years Past.

The records for 1899 show only 1,782 miles of track laid. In the eight years since that time the decrease in construction has been great and continuous and this year the total built was only about 100 miles more than in the year 1880—40 years ago.

The greatest amount of track laid was in Texas, where 224 miles were put down. It is stated no increase whatever was made. The railways of the United States on Dec. 31, will aggregate little over 181,000 miles.

SEVERE ON THE SOUTH

Lisbon Politicians Have a Little Plan.

IT IS THE OLD, OLD STORY

Too Many Candidates In This Part of the County, They Say, And Not Enough Good Places For the Center—How Judge Smith's Appointment Affects.

The following article from the Lisbon Buckeye is of interest because of the near approach of the Republican primaries, and it shows how the wind blows in that part of the county, if it be true:

The recent appointment of Judge Smith to the vacancy on the common pleas bench, while giving almost universal satisfaction upon the line of fitness for the duties and the conferring of merited honor, may possibly result in a future situation not wholly to the liking of residents of the southern part of the county, ambitious for place on county tickets hereafter to be named. This, at least, was the impression created in the mind of a Buckeye man, who chanced a few days since to hear an interesting conversation between two of the leading Republicans of the county, one of whom is a resident of Liverpool and a prominent aspirant for a nomination at the primaries next spring. The other party to the talk is a gentleman equally well known throughout the county, but not an aspirant for office.

"I think," said the latter, "that you people of the southern part of the county—or, at least, the numerous number of you who hope for nomination at the primaries next spring—made a great mistake in so zealously pushing Smith for the appointment to the common pleas judgeship."

"Why, how's that? Is he not fit for the place?"

"Oh, as to that there is no room for discussion, and I know of no one who cares to express a doubt on that point. What I refer to is the fact that the appointment, in connection with other well-known circumstances, is calculated to give fresh impetus to the prevailing impression that there is a disposition upon the part of you people of the southern part of the county to 'hog' things, so to speak."

"I have heard something of this at various times during the past year or more, but have credited such talk to the jealousy and envy of a few, rather than a prevailing sentiment in the party."

"I do not apprehend that the result will injure the prevailing preponderance of Republican sentiment in the county. The Republicans of Columbiana county are too loyal to the principles of Republicanism for that. But look for a moment at the situation at present and prospectively in the future, and see if you cannot find a pretty solid basis for the feeling that other parts of the county are not receiving as fair treatment as they should. You already have the common pleas judge, probate judge, auditor, treasurer, sheriff, one representative-elect, and one commissioner. Salem has only the recorder and a commissioner-elect, while Lisbon has the clerk, prosecutor and one infirmity director. Now, let's see what it will be after the newly-elected officers assume their duties: Ashford, one of the representatives-elect, is from the southern part of the county, as is Sheriff-elect Gill. The auditor and treasurer, who have been re-elected, are from Liverpool and Salineville respectively."

"But, then—"

"Wait a moment, please! I have not yet covered the ground. Let us look for a moment into the future, so far as we may. Next spring there will be to nominate a common pleas judge, a probate judge, recorder, commissioner, clerk and infirmity director. Judge Smith will undoubtedly be a candidate, as will Judge Young and Judge Wells, all, observe you, from Wellsville. Liverpool, from the looks of things, does not propose to be ignored in the distribution of favors any more in the future than she has been in the past. It is formally announced that she will have a candidate for probate judge, for recorder and for commissioner, and I haven't the slightest doubt that she will scare up a candidate for clerk in abundant time, and it is well known that she only awaits the expiration of Speaker's term to scoop in the office of prosecutor also. Madison township has named a candidate for infirmity director, and also for commissioner, and Washington has at least two aspirants for the clerkship. At this point it is pertinent to inquire, in the name of fair play, where the balance of us come in. This is why I remarked a moment ago that you fellows down south who want a nomination on the county ticket made a mistake in pushing Smith so zealously for the appointment to the common pleas judgeship. I am greatly mistaken in my view of the situation in the county if it does not, for the reasons I have given, greatly handicap the balance of the aspirants from that section."

"But you will admit that the southern part of the county has the votes."

"Oh, yes, and she also has the disposition to use them at primary elections with prodigality, but always in favor of the candidates from her own section. There is not, as might be supposed, an existing factional feeling in the party, the outgrowth of this one-sided arrangement. The Republican voters of all sections of the county have in the past given a most loyal support to the ticket named, and will continue to do so, but you know the fate that befel the frog when it tried to swallow the bull—it burst and thereafter could not enjoy even so much as an ordinary frog meal."

At this point the voice of the court bailiff called a familiar name from the balcony above and the Liverpool gentleman disappeared within the courthouse.

MORRISON'S FAUST.

The Popular Play Will be at the Grand Next Week.

Among the superior attractions to appear at the Grand this season, Morrison's Faust holds a prominent place, and will be here on Dec. 30. The dramatization of this production is a triumph of the stage and the interpretation of the lines of Mephisto is a revelation, a vivid, realistic conception of the Mephisto which the great German author designed. Plays of the spectacular order are fast finding favor, and this production of Faust is a masterpiece of mechanical effect upon the stage. The company and the piece are well known to East Liverpool theater goers, and there is no reason why Faust will not as usual be witnessed by a fine audience.

VERY THANKFUL.

Little Ida Hymes Has Enjoyed Good Music.

Ida Hymes, the little girl whose leg was broken on Fourth street a few weeks ago, writes the following:

"MR. EDITOR—I wish through your popular paper to thank my friends for the lovely presents sent me, especially by the Columbia club boys. It was so kind of them; but it is not the only kindness they have done me, though they don't know it. The lovely music at their rooms has been a great pleasure; for many nights has it given me rest and ease when I was suffering. For six weeks I have been sick, and I thank them. IDA MAY HYMES, '187 Washington street."
